

# Ozcape Campers

## Manufacturer Of Australia's Finest Slide-On Motorhomes

To start a small company is not that difficult. You need some ideas, some expertise to put them into action and some starting capital. To create a reputable brand, however, takes a bit more than that. It all starts with the right philosophy.

When Ozcape Campers on the Gold Coast began manufacturing Slide-Ons almost 20 years ago, the vision for the company was clear. The campers produced should be of highest quality, designed to withstand the conditions of the harsh Australian outback, and be of appealing appearance. They should be equipped with all the mod cons to meet the ever-increasing expectations of the market, and equally important, they should be easy to operate, even by a single person.

Given the vastness of the Australian continent, and the fact that a Slide-On motorhome is better suited to explore

it than any other RV, it has always been of utmost importance for the team at Ozcape that a trip isn't jeopardized by a technical component failure in the middle of nowhere. Fortunately, that risk is reduced to a minimum owing to their clever design solutions and conscious choice to use only the very best components.

A crucial element in building and maintaining Ozcape's fantastic reputation over the span of 2 decades is the company's commitment to offering excellent customer and after-sales service.

Compared to other RVs, the Slide-On concept is easily the most versatile, with the different Ozcape models catering for single, extra, and dual cab vehicles in the one-tonne class. Give Ozcape Campers a call on (07) 5520 7388 and they will be more than happy to help you to your perfect rig.
